

# Wildfire Residential Mitigation Incentive Program

Owners' and Renters' Activity Table: Additional Information and Special Requirements for People Who Own or Rent Apartments, Condos and Multiplexes

Wildfire resiliency activities	Specific requirements	Information for applicants	Maximum eligible CAD\$
Build/purchase an emergency preparedness kit in case of evacuation or shelter-in-place orders: <a href="#">Build an Emergency Kit — Canadian Red Cross</a> .	Photos of the kit and receipts for any items purchased	Keep a disaster preparedness kit at home with enough supplies for your family, including pets, for at least <b>3 days</b> . Including non-perishable food, water, and essentials now ensures you can provide for your family during an emergency.	\$50
Create a fire-safe apartment patio or balcony: clear combustible items like dry leaves, cardboard boxes, and other flammable items.	Before and after photos	In the event of a fire, a clutter-free space allows for easier evacuation. It also prevents fire from jumping to adjacent units, especially in multi-story buildings.	\$50
Create a fire-safe apartment patio or balcony: purchase fire-resistant furniture and/or planters.	Photos and proof that furniture/planters are non-combustible (e.g., material specifications)	Recommended materials include metal, stone, tempered glass, and treated wood. Avoid plastic, wicker, untreated wood, and foam cushions.	\$100

**Disclaimer:** It is important to note that no measure can completely eliminate the risk of damage or loss. Mitigation activities can help reduce the risk and potential impact of natural disasters, but they do not guarantee that properties will not be affected or damaged in the event of a hazard. It is important to always have a plan in place for emergencies and to follow any evacuation orders issued by local authorities. For additional information and helpful resources, visit <https://firesmartcanada.ca/>.

(\*Combustible means things that can easily catch fire and burn.)
