What legal protections does International Humanitarian Law (IHL) provide for persons with disabilities during armed conflict? How can the law be used to address disability, inclusion and protection in times of armed conflict? What actions have been taken in order to respond to the needs of the disabled and promote respect for their dignity and fundamental protections during armed conflict? This online conference will bring together experts from the field of IHL and Disability Rights including academics, practitioners, and representatives from the Red Cross / Red Crescent Movement.
