CONFERENCE BACKGROUND & TOPIC

Join us as we explore the successes and challenges related to the protection of civilians under International Humanitarian Law. Throughout the conference, the keynote speech and simultaneous panel discussions will address the difficulties associated with protection in the context of displacement and with impacts emanating from interferences with healthcare in times of conflict. To conclude the day, we will host a plenary session in which we will discuss the importance, relevance and key challenges that humanitarian principles and the concept of Neutral Impartial Independent Humanitarian Action (NIIHA) face in field operations.

The conference will bring together experts from the field of IHL as well as academics, practitioners and representatives from the Office of the Judge Advocate General and Red Cross/Red Crescent Movement.
